

Connecting with the Portage Police Department

Providing a communication avenue for our citizens and visitors is essential to the success of our department and the service we provide. Below you will find links to surveys, award recognition, and our complaint form. The Community Input Survey allows you to tell us what's important to you and generally how we are doing. The Interaction Survey gives you an opportunity to provide us your perspective of the contact with one of our officers. Both surveys can be done anonymous. The complaint form must be completed in entirety for submission.
