

National Night Out

The department will participate in National Night Out which according to their website <https://natw.org> enhances the relationship between neighbors and law enforcement while bringing back a true sense of community. This community-building campaign occurs on the first Tuesday in August and brings residents and law enforcement together under positive circumstances. This year's event will be at Collipp-Worden Park starting at 4:00 pm. Area first responders and equipment will be on display as well as many community partners. The event will include a movie in the park so bring your lawn chair or picnic blanket.
