

Police and Fire Open House

On the second Saturday in October, We open the doors to the police department and fire department to allow a look inside. During the open house there are demonstrations, displays, and vendors providing safety and community information. We also have many activities for children. Besides some police and fire giveaways, there is a children's gun safety course, the Elks lodge Drug information, the State Patrol's convincer, and free bike helmets. Please come and meet the first responders in your community.
